2 AUG 1984

MEMORANDUM FOR: Chief, Security Analysis Group
Chief, Information Review Group
Chief, Physical Security Division
Chief, Information Systems Security Group

FROM:
Chief, Policy and Plans Group

STAT

SUBJECT: ISOO Notes and Reminders

REFERENCE: DDA 84-1976/1

1. Reference, a copy of which is forwarded herewith for your information, provides background on the activities of the Information Security Oversight Office.

2. In addition to the notes on the 25 July 1984 Routing and Record Sheet, you should be aware of the following:

- ° The Policy and Plans Group has prepared a draft Headquarters Regulation on Damage Assessments. The need for the Agency to publish rules in such detail is under review.

- ° The Agency has advised the National Security Council that we intend to continue using our own Secrecy Agreements rather than the SF 189.

- ° The "Standard Forms" mentioned in paragraph 6 of the ISOO memorandum have arrived and will soon be under review by appropriate Agency elements, including the Office of Security. It does not appear that the forms will have significant impact in our activities. The Physical Security Division, the Information Systems Security Group, and this office will be the Office entities pursuing this issue.

3. In summary, the ISOO is not faulting CIA on any of its ISOO-related activities.
